IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re application of : **Confirmation No. 3794**
Kiyomi SAKAMOTO et al. : Attorney Docket No. 2000_1699A
Serial No. 09/733,926 : Group Art Unit 2174
Filed December 12, 2000 : Examiner Steven Paul Sax

COMMAND CONTROL DEVICE
AND NAVIGATION DEVICE

**PETITION TO WITHDRAW
HOLDING OF ABANDONMENT**

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Based on a telephone call from Examiner Steven Sax to the undersigned (an attorney at the law firm of Wenderoth, Lind & Ponack, L.L.P.), as well as a subsequent review of the information contained in PAIR and the receipt of a Notice of Abandonment mailed on January 5, 2007, it was discovered that a Final Office Action was mailed from the U.S. Patent and Trademark Office on June 9, 2006.

The undersigned, who is the attorney in charge of prosecuting this application, has searched the relevant records of his office and has concluded that the OFFICE ACTION of June 9, 2006 was never received.

In this regard, when an Official Action is received, it is first docketed for action by Pamela Veazey, the chief docket clerk of the firm, in a computerized database which is maintained by her for this purpose.

A copy of the relevant pages, i.e., a printout of Ms. Veazey's computerized docket showing the responses due on September 9, 2006 are submitted herewith as **Exhibit "A"**. As can be seen, there is no reference to the subject application on this printout for September 9, 2006 (see docket page 9)

THE COMMISSIONER IS AUTHORIZED
TO CHARGE ANY DEFICIENCY IN THE
FEES FOR THIS PAPER TO DEPOSIT
ACCOUNT NO. 23-0975

Likewise, the undersigned maintains a personal docket, and a copy of the page for the month of September 2006 is enclosed as **Exhibit "B"**. Upon receiving a Office Action, the attorney docket number (which is 2001_1699A for the present application), and name of the first inventor (which is Sakamoto) are entered on the three-month Response due date. Again, as can be seen from the enclosed copies, no reference to this application was entered on the due date of September 9, 2006. The only item listed on September 9, 2006 is an application having an attorney docket number of 2006_0217, with the name of the first inventor being Nakamura.

In addition, the undersigned's secretary maintains a docket book in much the same way that the undersigned does, a copy of the page from the secretarial docket for September 9, 2006 is enclosed as **Exhibit "C"**. Again, no reference is made to the subject application.

A search of the WL&P file jacket also indicates that the OFFICE ACTION was not received since reference to outstanding Official Actions would normally be entered on the face of the file by the chief docket clerk. A copy of the relevant portion of the face of the file is enclosed as **Exhibit "D"**.

The foregoing facts are delivered to constitute a *prima facie* indication that the Official Action was never received by Wenderoth, Lind & Ponack, L.L.P., since the present application would have been listed on the various docket pages and application file jacket had it been received.

The foregoing facts are considered sufficient to restore this application to active status by remailing the OFFICE ACTION of June 9, 2006, and setting a new Response due date. An early indication to this effect is respectfully requested.

Respectfully submitted,

Kiyomi SAKAMOTO et al.
